

ENVIRONMENTAL CONSULTING BUSINESS

Price \$350,000

S.D.E \$173,166

A rare opportunity exists to secure a scientific consultancy based in Northland with a 25 year trading history.

The company has built a stellar reputation in the area for providing resource management and environmental monitoring services.

This business would be suitable for someone with a scientific background, who wants their own business and who is also wanting a lifestyle change, or alternatively as an acquisition for a larger company (planners, surveyors or engineering) wanting to expand.

The businesses performance is underpinned by a range of long term regular clients and new, combined with a team of highly qualified and dedicated employees, including Environmental Scientists, Managers, and Consultants. For additional services there is a network of specialist contractors that have worked with the company some for 15-20 years.

If you have background in Ecology or have a degree and or experience working in the following fields, this could be the perfect opportunity:

- Environmental Scientist
- Water Ecologist
- Micro Biology
- Engineering
